Money matters:

The supply of Money continues ample for borrowers wants at the rates before quoted. Demand Loans are 687 per cent. as digit edged Paper 55657 per cent. Long, double-manned Paper, running into 4 cd., goes at 75669 per cent.

The Foreign Bill market continues very hactive and beavy, with a free supply of Merchan s' Bells. Leading bankers sak 1895 for sterling, but good Southern bank bills have been sold at 10956000%, and bankers' at 1095 per cent. A considerable amount of slight storing has been sold by this straner at 11056110% against the bars received by the North Ster, which go forward tomorrow. Vrancare also dull.

The same number of the Trösseremarks, con-

erning the Dry Goods trade in New York, during

the past week:

The trade in Dry Goods during the week has been good—not as large as some weeks we have reported, but quite restrictory. The Western buyers have confined their purchases to early autumn necessities, rather than hald in their winter amplies, which will extend the trade to the later months; and we look forward to an enlarged trade all through the season. Large operations in Printing Clotts have been made the past week, principally direct with the manufacturers, at about previous prices, although in some instances an advance in 60x56 has been obtained. Some of these contracts extend to March, led, and a very few expire before the present year. Brown Sheetings are sold as fast as produced, and no occumulation exists.

Bleached Cottons are in quick demand at full rates, and sit the regular or irregular styles are taken readily.

The consumption of all fabrics is on the increase. Bleached Cottons are in quice demand at full rates, and all the regular or irregular at rigies are taken rendity.

The consumption of all fabrics is on the increase, and gramies it equal the preparations for the increased production.

The shipments of Domestics from Boston to forcin ports since January, have exceeded any previous year, amounting to about \$1,850,065-41nm giving an agaregated shipment from the ports of more than \$6,000,00 during the last seven months. This is an encouraging feature, and although the amount is not relatively large as compared with our general export inde, yet the firmness of the goods market for the past year must be attributed in no small degree to that fact

THE MOST WONDERFUL DISCOVof London and Bastimore Hospitals, where he has
had many years' practice in the treatment of venereal discusses, but more recently of Mexico, where
such discusses are to be found in their rankest form.
During his gractice there, in connection with Dr.
Don ANTONIO DE LAUSVALLUS, one of the
most eminent physicians in Maxico and Spain, they
discovered a remedy in one of the Mexican plants,
and found only in Southern Mexico, that removes, as
if by magic, all the veneraal taint from the system,
in the primary or secondary form. Syphilis, in the
worst stage, permanently cured in a very short time,
and the system thoroughly cheaned and pure, as
if it had never been contaminated by that worst of
all discases, Syphilis. Scrothia, legreay and all
kinds of corruption of the blood and discases of the
akin removed permanently and quickly by this powstful agent and aider of nature, "Maxican Specific."
